JUVENILE COURT IN HOPKINS COUNTY.

(Continued from Page 1.)

and in any case the Judge may appoint some suitable person to act in behalf of the child. Summons and notice may be served by the Sheriff or any duly appointed probation officer, either by reading the same to the person or persons to be served, or by delivering a copy thereof to the person or persons, or by leaving a copy thereof at his usual place of abode, if stated in the petition or known, with some person of his family of the age of ten years or upwards, and informing such person of the contents thereof. The return of such summons or notice, with the indentment of service by the Sheriff or probation officer in accordance herewith, shall be sufficient proof thereof. If the person summoned, as herein provided, should fail, without reasonable cause, to appear and abide the order of the court or bring the child, he may be proceeded against as in case of contempt of court. In case the summons cannot be served, or the party fails to obey the same, and in any case when it shall be made to appear to the court that such summons will be ineffectual, a warrant may issue on the order of the court either against the parent or guardian or the person having the custody of the child, or against the child itself, or both. On return of the summons, or on the process, or on the appearance of the child with or without summons or other process in person before the court, and on return of the service of notice, if there be any person notified, or upon the personal appearance or written consent to the proceeding of the person or persons, if any be notified, or as soon thereafter as may be, the court shall proceed to hear and dispose of the case in a summary manner, and all hearings shall, so far as the same may lawfully be done, be had in chambers to the exclusion of the general public.

May Parole Child.

Until the first hearing of the case by the court, the chief probation officer or the assistant chief probation officer may parole a child upon his own recognition, or upon the recognition of the parent or person having the custody of the child, to appear before the court at such time as may be herein fixed, or the probation officer may cause the child, if less than fourteen years of age, to be placed in the detention school hereinafter mentioned, or if the offense with which the child is charged

Magistrate of jurisdiction, as the same now exists in cases where the child is held upon a charge of committing a felony. Any child proceeded against as in this act provided shall have the right now given by law to any person to give bond or other security for its appearance at its trial.

May Remain in Its Home

Sec. 6. In any case of a delinquent child coming under the provisions of this act, the court may continue the hearing from time to time and may commit the child to the care of a probation officer, and may allow said child to remain in its own home, subject to the visitation of the probation officer; such child to report to the court or probation officer as often as may be required, and subject to be returned to the court for further proceedings whenever such actions may appear necessary; or the court may cause the child to be placed in a suitable family home, subject to the friendly supervision of the probation officer and the future order of the court; or it may authorize the child to be boarded out in some suitable family home, in case provision is made by voluntary contribution or otherwise for the payment of the board of such child, until suitable provision be made for the child in a home without payment, or the court may commit such child to the detention school or to the House of Reform for Girls. If a girl, or the court may commit the child to any institution within the county incorporated under the laws of the State that may care for children, or which may be provided by State or county municipality, suitable for the care of such children, or to any association which may now or hereafter be established for the care of boys or girls. In no case shall a child proceed against under the provisions of this act be committed beyond the age of twenty-one.

A child committed to any such institution shall be subject to the control of the board of managers, and the said board shall have power, with the approval of the County Court, to parole such child on such conditions as it may prescribe; and the court shall, on the recommendation of the board, have power to discharge such child from custody whenever, in the judgment of the court, its or her reformation is complete; or the court may commit the child to the care and custody of some association that will receive it, embracing in its objects the care of neglected or delinquent children.

Sec. 7. When any child shall be found to be dependent or neglected, within the meaning of this act, the court may make an order committing the child, for such time during its minority as the court may deem fit, to the care of some reputable citizen of good moral character, or to the care of some association, society or corporation, willing to receive it, embracing in its objects the purpose of caring for or obtaining homes for dependent or neglected children. The court may there-

after act aside, change or modify such order.

Sec. 8. The County Judge of each county may appoint a board of not less than six nor more than ten reputable inhabitants, one of whom shall be a member of the committee that recommends the appointment of police matrons in counties where there is such committee, who will serve with compensation, to constitute a board of visitation, whose duty it shall be to visit, as often as once a year, all institutions, societies and associations receiving children under this act; said visits shall be made by not less than two of the members of the board, who shall go together to make a joint report to the board of visitors shall report to the court, from time to time, the condition of children received by or in charge of such associations or institutions, and shall make an annual report to the Judge of the County Court.

Sec. 9. In any case in which the court shall find a child neglected, dependent or delinquent, it may, in the same or subsequent proceedings, upon the parents of said child, or either of them, being duly summoned, or voluntary appearing, proceed to inquire into the ability of such parent or parents to support the child or contribute to its support; and if the court shall find such parent or parents able to support the child or contribute thereto, the court may enter such order or decree as shall be according to equity in the premises, and may enforce the same in any way in which a court of equity may enforce its orders or decrees. Sec. 10. This act shall be liberally construed, to the end that its purpose may be carried out, to-wit: That the care, custody or discipline of a child shall approximate as nearly as may be that which should be given by its parents, and in all cases where it can be properly done, the child be placed in an approved family home, with people of the religious belief and become a member of the family by legal adoption or otherwise.

Sec. 11. All acts or laws inconsistent with the provisions of this act are hereby repealed.

Approved March 21, 1906.

REAL ESTATE FOR SALE

If you want to make money, now is the time. I have in my possession one of the best land and timber bargains ever offered the public. It consists of

13,645

Acres

Of pine timber land on Pensacola Bay, 15 miles from Pensacola, and has 20 miles of deep water frontage.

This timber is yellow pine and averages 20 inches at the stump, and estimates 7,000 feet of lumber to the acre. Yellow pine lumber is worth today \$11.00 per 1,000 feet. The timber will pay for the land and you will still have the land worth from \$10.00 to \$15.00 per acre for farming purposes. I will sell all of this tract at

\$10 per Acre

Or will sell in sections at \$15.00 per acre. If interested, write quick.

J. E. F. CETT, Real Estate Agent, Earlington, Ky.

SCOTT'S BOWNE, Chemist, 100 East Second, New York, N. Y. Price 50c; all druggists.

Success of American Orchestra.

Kelix Weingartner, the noted composer-conductor, in commenting on American orchestras, attributes their great success to the fact that they are cosmopolitan in personnel, whereas European orchestras, excepting possibly those in England, are largely national. He thinks French players the most skillful in the wood-wind, the Germans in the brass. The American orchestra conductors seek the best players available without regard to nationality, the only requirement being that they excel on their particular instrument.

Following the Flag.

When our soldiers went to Cuba and the Philippines, health was the most important consideration. Willis T. Morgan, retired Commissary Sergeant U. S. A., of Rural Route 1, Concord, N. H., says: "I was two years in the Philippines, and being subject to colds, I took Dr. King's New Discovery for Consumption, which kept me in perfect health. And now, in New Hampshire, when I find the best medicine in the world for colds, coughs, croup, chest troubles and all lung diseases." Guaranteed at St. Bernard Drug Store. Price 50c, and \$1. Trial bottle free.

The California Chinese are to make an effort before the highest court of the land to register the names of their people. The contention of leading Chinese is that more accurate records of the population, a great part of which are not duplicated in Washington, were destroyed in the San Francisco fire. It is stated that there are only 50,000 Chinese in California.

Don't!!!

Don't let your child suffer with that cough when you can cure it with Ballard's Horehound Syrup. I know of no other cough medicine. Croup, Whooping Cough, Bronchitis, Influenza, Croup and Pulmonary Aids. Buy a bottle and try it. B. B. Lauder, Rytalia, Miss., writes: "I have two children who had croup. I tried many different remedies, but I must say your Horehound Syrup is the best Croup and Cough medicine I ever used." Sold by St. Bernard Drug Store.

The spirit of the cave dwellers is not dead. This is shown by the temperance home of Maj. J. H. Toulson, who has lived since the recent unpleasantness in a cavern at the corner of Broadway and Jones Street, San Francisco.

Thousands annually bear witness to the efficiency of Early Risers. These pleasant, reliable little pills have long borne a reputation close to none as laxative and cathartic. They are as simple as bread in the making of home pleasure and effective. Will promptly relieve constipation without griping. Sold by John X. Taylor.

Many a man thinks he is busy when he is only buzzing.

Foley's Kidney and Bladder Pills—Children safe. No opiates.

Trust to Nature.

A great many Americans, both men and women, are thin, pale and puny, with poor circulation of the blood. They treat their stomachs by eating too much, or by too close confinement to home, office or factory, and in consequence the stomach must work in a natural way before they can rectify their condition. The blood in many such people, in fact in every weak and thin-blooded person, does not flow with the greatest facility. The blood comes early in the morning and late in the evening, and is not in the blood stream. To insure perfect health, pure clean, new blood and materials and return to it certain food which is necessary to produce rich red blood. We must go to Nature for the remedy. There were certain roots known to the Indians of the country before the advent of the white man, which later came to the knowledge of the settlers and which are now growing rapidly in the mountains and in the fields of the stomach and liver troubles. These are found to be safe and yet certain in their cleansing and purifying effect upon the stomach, liver and blood. These roots are: Bloodroot, Mandrake, Sassafras, Wild Cherry, and the medicinal principle residing in the native roots when extracted with glycerine as a solvent make a powerful and efficient stomach tonic and liver invigorator, which is the basis of the right proportions, as in Dr. Pierce's Golden Medical Discovery. Where there is a derangement of the system, exhaustion, bad nutrition and thin roots, the best remedy is the Golden Medical Discovery. It is a powerful blood tonic, yet few have used pure glycerine as a solvent and extract of the roots in varying amounts, with alcohol.

The "Golden Medical Discovery" is a scientific preparation compounded of the glycerine extract of the above mentioned vegetable ingredients and contains no alcohol or harmful habit-forming drugs.

Moslems May Have Phonographs.

The Ulema of the University of Al Azhar have decided as to the phonograph and insurance that there is nothing in Islam which forbids Moslems to listen to the phonograph and that, if the verses of the Koran are suitably recorded, and the phonograph the listener may be justly considered to be performing a good deed, a worship, a duty, which all are greatly devoted. Fire and life insurance are, however, condemned by the Moslems, as a blasphemous transaction contrary to the teachings of the Koran.

Deadly Serpent Bites.

Are as common in India as are stomach and liver disorders with us. For the latter however there is a sure remedy: **Foley's Kidney and Bladder Pills**, of which S. A. Brown, of Bennettville, S. C., says: "They restored me to perfect health, after years of suffering with dyspepsia and a chronic liver trouble. I have since cured my children and my wife. I have since cured my children and my wife. I have since cured my children and my wife." Sold by St. Bernard Drug Store. Price 50c.

For 36 cents a man recently computed a few thousand dollars found in 19 ways of doubling his money—not in one year—in from seven to sixty days. "And," he said, "none of them came from William F. Miller, 'Colonel Bob' Ammon of Mr. Lawson, of Boston." This man put an advertisement in one afternoon newspaper. He said of opinion that if he had advertised in all the papers in New York he would have found investment for half a million dollars.

There Are Few

people who know how to take care of themselves—the majority do not. The liver is a most important organ in the body. Herbs will keep it in condition. V. C. Simpkins, Abilene, Texas, writes: "I have used Herbs for Chills and Fever and find it the best medicine I ever used. It would not be without it. It is as good for children as it is for growing-up people, and I recommend it. It is fine for La Grippe." Sold by St. Bernard Drug Store.

Chaplain Hale, of the senate, feels that he has his work cut out for him fully up to the point of earning his meager salary.

Cured of Bright's Disease.

Geo. A. Sherman, Lebanon Road Mills, Lawrence county, N. Y., writes: "I had kidney disease for many years and had been treated by physicians for 12 years; had taken a well known kidney medicine and other remedies that were recommended, but got no relief until I began using **Foley's Kidney and Bladder Pills**. The first half bottle relieved me and four bottles cured me of this terrible disease. Before I began using **Foley's Kidney Cure** I had to make water about every 15 minutes, day and night, and passed a brick of substance, and sometimes a stinky substance. I believe I would have died if I had not taken **Foley's Kidney Cure**." John X. Taylor.

An umpire was killed by a left fielder at Puncutawaway, Pa. Interference in baseball is evidently not on the wane in other places.

There is no need worrying along in discomfort because of a disordered digestion. Get a bottle of **KODOL FOR DYSPEPSIA**, and see what it will do for you. **Kodol** not only digests what you eat and gives you a tired stomach a needed rest, but is a corrective of the greatest efficiency. **Kodol** relieves indigestion, dyspepsia, flatulence, and sour stomach. **Kodol** will make your stomach strong and healthy again. You will worry just in the proportion that your stomach worries you. Worry means the loss of ability to do your best. Worry is to be avoided at all times. **Kodol** will take the worry out of your stomach. Sold by John X. Taylor.

Pampered Stomachs.

Even though it takes pork four hours to leave the stomach and six hours to be dissolved and absorbed in the small intestines, what does that matter so long as it is completely assimilated by the end of that time as it is in 90 per cent of all digestive canals? It is the slowest, but one of the surest foods that we have to give all the energy to the body. Its very slowness is what gives it its value. The food that is hard to work, whether muscular or mental. As a matter of fact I have seen more cases of dyspepsia cured by the use of breakfast bacon than by any kind of drug or restricted diet. An adult alimentary canal which cannot digest bacon or ham is not regarded as healthy and instead of humoring and giving up to a weak digestion, it should be braced up and, under skilled supervision, educated to take what it is given and make no fuss. Stomachs can be spoiled by giving them too little to do as much as easily as by giving them too much. A healthy stomach fit to cope with the emergencies of life must be able to digest not only that which is digestible but much that is difficult to digest, and this is the standard by which all diets should be judged. Therapeutics.—Woods Hutchinson, M. D., in McClure's Magazine.

Will Cure Consumption.

A. A. Herri, Finch, Ark., writes: "**Foley's Horehound and Tar** is the best preparation for coughs, colds and croup. I have used it for years and it has cured consumption in the first stages. You never heard of anyone cured by **Foley's Horehound and Tar** and not being satisfied." John X. Taylor.

It's a bad day for the artificial blonde. A shortage of the supply of peroxide, together with a careless appearance, has resulted in many peculiar coiffure combinations. The blonde of yesterday, yesterday, will be the blonde bunnets of tomorrow. Inability to secure the needed dose of day before yesterday, will be the blonde bunnets of tomorrow. Inability to secure the needed dose of day before yesterday, will be the blonde bunnets of tomorrow. Inability to secure the needed dose of day before yesterday, will be the blonde bunnets of tomorrow.

How's This?

We offer Our Hand to be rewarded for each case of Catarrh that cannot be cured by Hall's Catarrh Remedy. We, the undersigned, have known F. J. Cheney for many years, and he is a man of honorable and all business transactions and honest in his dealing, and his character is made by him. Wm. W. Kneass & Hays, Wholesale Druggists, Toledo, O. Hall's Catarrh Remedy is sold directly upon the blood and mucous surfaces of eye, nose, throat, and ears. Price 75 cents per bottle. Sold by all Druggists. Take Hall's Family pills for constipation.

All of the hatcheries of British Columbia have secured a full supply of salmon parr and by the erection of fish ladders a very large district, which had been cut off from the sea for a number of years. The number of young salmon that will go to the ocean this year will be far greater than in any previous year, and an exceedingly large run may be expected in 1907.

You cannot induce a lower animal to eat heartily when not feeling well. A sick dog or cat will not eat, and a sick child will not eat. The stomach, once overworked, must have rest the same as your feet or eyes. You don't have to starve to rest your stomach. **Foley's Kidney Cure** takes up the work for your stomach, digests what you eat, and gives it a rest. Put it back in condition again. You can't feel good with a disordered stomach. Try **Kodol**. Sold by John X. Taylor.

Mis- doubtless carry contagious diseases from one fowl to the other, including the bird in taking their food.

CASTORIA

For Infants and Children. The Kind You Have Always Bought Bears the Signature of **Dr. J. C. Atkinson**

are caused by indigestion. If you eat a little too much, or if you are subject to attacks of indigestion, you have no doubt had stomachs of bristly, rapid heart beat, heartburn or palpitation of the heart.

Indigestion causes the stomach to work over-heat, and put up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

Kodol Dyspepsia Cure digests what you eat, takes the strain off of the heart, restores normal nourishment, strength and health to every organ of the body. Cures Indigestion, Dyspepsia, Sour Stomach, the formation of gall stones, membrane lining the stomach and digestive tract, nervous dyspepsia and Catarrh of the stomach.

After using, my food would distress me by making my heart palpitate and I would become very weak. I could not sleep at night. After using a few bottles I am cured. MRS. LORRAINE NICHOLS, Penn Yan, N. Y.

I had stomach trouble and was in a bad state as I had heart trouble with it. I had used **Kodol** for four months and I feel fine. D. K. B. Berda, O.

Digests What You Eat Sold by John X. Taylor.

My Hair Ran Away

Don't have a falling out with your hair. It might leave you! Then what? That would mean thin, scraggly, uneven, rough hair. Keep your hair at home! Fasten it tightly to your scalp! You can easily do it with **Ayer's Hair Vigor**. It is something more than a simple hair dressing. It is a hair medicine, a hair tonic, a hair food.

The best hair of a lifetime—held for over sixty years. Made by J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. **Ayer's** PILLS. CHERRY PECTORAL.

Dew as a Respecter of Colors.

Dew is a great respecter of colors. To prove this, take pieces of glass or board and paint them red, yellow, green and black. Expose them to the night, and you will find that the yellow will be covered with moisture, the green will be damp, but that the red and black will be perfectly dry.

An Alarming Situation

frequently results from neglect of clogged bowels and torpid liver, until constipation becomes chronic. This condition is unknown to those who use Dr. King's New Life Pills; who use best and gentlest regulators of the bowels and bowels. Guaranteed by St. Bernard Drug Store. Price 25c.

The Standard Oil Co. is getting a great deal of free advertisement. It may come in handy some day. No matter how dark and damning the current, it will have to be conceded that the oil is very greasy.

A hacking cough is most annoying. One Minute Cough Cure draws out the inflammation out of the throat, chest and lungs. Sold by John X. Taylor.

Winston Churchill, British under secretary to the colonies, is growing stout, and lately he was taking a lady to dinner and remarked: "Mr. Churchill, I like your politics as little as I like your music." He replied, "You are not at all likely to come in contact with either."

MINING NOTES.

Henry Lawson, of Madisonville, visited relatives here Sunday.

Supt. Jno. Orr, of Providence, was in the city Saturday on business.

Mr. and Mrs. E. M. Goodloe are spending the week with friends and relatives in Providence.

Jas. Austin, of this place, has accepted a position with the Uniontown, Ky., Coal Company as hoisting engineer at their mines.

"The miners, and the labor unions generally," says the Rev. Dr. Washington Gladden, "must learn to be reasonable and decent. If they insist on having the earth they will be wiped from the face of it. Tyrannies are not going to thrive in the twentieth century. It is time for the sensible members of the union to assert themselves and to enforce a policy of live and let live."

A petrified log has been found in a bed of limestone at a depth of one hundred and seventy feet in a coal mine at Smith's Mills. The bark and the form of the log may be plainly seen in the roof of the mine, and it would be an interesting study for people interested in geology. The fact that the petrified timber is at such an extreme depth and that it is in solid limestone makes it evident that it grew probably a million years ago.

The coal strike in Illinois, which kept 40,000 miners idle for two months, has ended. The principal feature of the agreement between the operators and miners are: The scale of 1908 for hand and machine mining; every miner who participates in a strike \$10 and each operator looking out his miners \$100, the money to be divided between the two organizations; in case of new legislation, the party profiting by it must reimburse the other. Mine inspectors are not to be members of the Miners' Union.

The Green River Coal Company, of Parkersburg, W. Va., has purchased the 400-acre farm of Clay Taylor on Green river at Taylortown, Ohio county, Ky., at a consideration of \$37,000, and will use it, according to reports, for a low site and open mines. As a further evidence that something definite is to be done or is being done it is known that options covering thousands of acres of mineral land adjacent to the Taylor farm have been acquired by this company. It is not known when active operations will begin.

SOUTHWEST

The Land of BIG CROPS and PROSPERITY

Are you making as much off your farm as you ought? No doubt you are making all you can. The trouble is the land costs too much. It takes too much money to buy a big farm, and so you are trying to make a living on a small farm, or perhaps you are renting one and paying a good share of what you raise, in rent. Wouldn't it be better to go where the price of good land is so little that you can own a big farm—where every acre of the ground is working for you and all you raise is paying you good profit?

There are thousands of acres of fertile land in the Southwest along the line of the Cotton Belt Route that can be bought for from \$3 to \$10 an acre. This land is increasing in value each year.

See the Southwest at Small Cost

A trip to the Southwest would convince you that your best interests lay in settling there. The trip can be made at very little expense. On the 1st and 3rd Tuesdays of each month you can purchase a round trip ticket to any point in the Southwest on or via the Cotton Belt Route at very low rates. Stop-overs will be allowed for you to examine any locality you are interested in.

Write at once for free copies of books describing this wonderful country and for full information about cost of tickets, etc.

L. J. BARRY, T. P. A., often Bell Route, 82 Todd Building, Louisville, Ky.

BISHOP & COMPANY

Madisonville, Kentucky

COLORED COLUMN

EDITED BY JAMES E. TODD.

Rev. H. A. Keeton and family have gone on a tour for his health.

Misses Bessie Amos, Myrel Hatcliffe and Mrs. Lena Johnson are out again.

Rev. H. Amos preached the annual sermon for the Good Samaritans Sunday.

Mr. Lewis Edwards and Mrs. Matilda Childs were quietly married by Rev. H. Amos Saturday night.

Prof. J. W. Bell, principal of the city school, Hopkinsville, attended the convention here last week.

Mr. Henry Maxwell and Miss Laura Brown were married in the office of Mr. Watson at Madisonville Thursday, Rev. H. Amos officiating.

Virginia street choir was kind enough to leave their own church services and come and sing for the convention Sunday. They rendered some excellent music.

Miss Emma Fowler entertained a few friends Thursday night in honor of Miss Willie Martin, of Henderson. After several games were played refreshments were served.

From all sources \$750 was raised at the convention last week. This eclipsed the amount received at all former conventions. The Earlinton Mt. Zion Baptist church donated \$60 from its treasury to the above cause.

Parents vacation is here. Let us see that our boys and girls are employed at something that we may know that the hands must be trained to do more than using a pen or pencil and that manual training or work is honorable. Children rest father and mother now that their days may be made more cheerful and yours prosperous.

Class No. 3 of the A. M. E. Zion Sunday school will give a pink lawn at said church Thursday night, June 9th. Admission free, but come prepared to vote for the girl presenting the nicest work as a prize will be given to the one receiving the largest number of votes. Come and enjoy the delicacies of the season. This class is working for a prize. So if you want to help come.

The First District Sunday school convention was held here from May 24th to 27th at the Mt. Zion Baptist church and the record of the convention was broken along all lines Thursday night at the Temple Theatre an excellent program was rendered in welcoming our distinguished guests and convention to a large and appreciative audience.

The following distinguished visitors were present and said many excellent things which will be cherished by many days. Rev. J. E. Ford, president of State University.

Hon. W. H. Steward, the great layman and editor of the American Baptist, Louisville, Ky. Rev. Dr. S. W. Jacobs, of Kansas City, Mo.

Rev. Dr. S. E. Smith, Lexington, Ky.; Rev. Dr. S. L. M. Francis, Henderson, Ky.; Rev. Dr. P. H. Kennedy, general missionary, Henderson, Ky.; Rev. J. W. Hawkins, Paducah; and Prof. P. E. Frazier, president of M. & F. College, Hopkinsville.

KECIA COLORED NEWS.

The wedding bells are still ringing in Hecla.

Bud Ford and Will Gilechrist were on the sick list last week.

Mr. Bob Eaves, of Madisonville, was here Sunday visiting relatives.

Mr. Joe Eaves was called to Owensboro Sunday to assist in a ball game.

Ed, Elliott, of Daniel Boone, was here Saturday the guest of Mr. and Mrs. Ben Isabel.

Mr. James Landers and Miss Gertrude Clark, of Hopkinsville, were married Sunday night at the Baptist church, Rev. J. I. Douglas officiating. A reception was held at the groom's home.

How Are Your Kidnappers?

Mr. Mobley Buchanan Pitts (alias) Kidney the Boy, of New York, is being held in a room at the Earlinton Hotel.

If you are a Kentuckian why not travel via a Kentucky line to your old Kentucky home?

"The Henderson Route"

Special trains for Home Coming via the above route will be run through from St. Louis to Louisville, Ky. on Missouri Home Coming Tuesday, June 12, 1906, on the following schedule:

Special for St. Louis and Missouri Home Comers.

Lv. St. Louis, Mo., 10:00 p. m. via Henderson Route.

Ar. Louisville, Ky., 7:35 a. m. via Henderson Route.

Lv. St. Louis, Mo., 10:00 a. m. via Henderson Route.

Ar. Louisville, Ky., 7:50 p. m. via Henderson Route.

Regular trains leave St. Louis Union Station daily at 8:12 a. m. and 3:45 p. m., carrying up to date equipment and Pullman sleepers.

Low rates from everywhere. Ask your agents for tickets via "HENDERSON ROUTE." The only line St. Louis to Louisville that runs through Kentucky and along the OLD OHIO.

Anyone desiring information as to rates, or sleeping car reservations, to Louisville, Ky., at the time of the Home Coming, or descriptive literature of the State of Kentucky and program of Home Coming exercises, can secure same by calling upon or addressing:

GEO. H. BAKER, Traveling Passenger Agent.

F. O. CUNNINGHAM, General Agent.

201 North Broadway, St. Louis, Mo.

BOMB-THROWER DEAD

KILLED HIMSELF WHEN ESCAPE WAS IMPOSSIBLE.

His Body Identified By the Man From Whom He Rented a Room.

Madrid, June 6.—The wretch who slung a score of fellow beings in Calle Mayor, Thursday, in an attempt to murder the king and queen of Spain, is dead by his own hand, after adding another crime to the list before he died. He killed himself in the village of Torrejon De Ardoz, about fifteen miles from Madrid.

Saturday afternoon he went to the railway station and asked what time the next train left for Saragossa. On being told there was no train until the night mail he entered an inn and ordered a meal. He did not taste the food, however, but sat restless and ill at ease. His hunted, forlorn appearance raised a suspicion that he was a fugitive from justice. Among the guests was a man named Reyes, who conferred with the landlord and they communicated with the rural police. Thereupon a gendarme named Vega went to the inn, accosted the stranger and asked whether he had papers of identification. The reply being in the negative, the gendarme said: "You must come with me."

"What for?" queried the man.

"You'll see at the police office," the gendarme responded. The stranger arose, walked to the street, closely followed by Vega, who had only gone a few yards when the prisoner made some remark to the gendarme. He pointed across the street. Vega turned to look, whereupon the prisoner drew a revolver, shot the gendarme dead and started to run; but he was so near the inn that its occupants, who had seen all, fell upon him. Seeing that escape was hopeless, he turned the revolver upon his breast, fired and fell across Vega's body.

The authorities at Madrid were informed of the circumstances, and some hours later officials went to Lorrelon to investigate. They returned to Madrid, bringing the body on the train. The proprietor of the place where the assassin had rented a room was summoned, and declared the body was that of the tenant of the room from which the bomb was thrown, and the police identified it as that of Mateo Morera. At first there was a desire to bury it at Torrejon De Ardoz, but when this was suggested the villagers indignantly refused to permit the body to repose in their town.

THE COTTON ACREAGE

FIGURES OF GOVERNMENT REPORT QUESTIONED.

Representative Ellerbe, of South Carolina, Wants the Source of The Estimate Produced.

Washington, June 6.—Representative Ellerbe, of South Carolina, introduced a resolution, Tuesday, charging that the cotton acreage report of the department of agriculture, issued Monday, giving an estimate of 28,686,600 acres, exceeds the amount actually planted, and is not warranted from the returns received by the department from its crop correspondents.

The resolution directs the secretary of agriculture to furnish the house the tabulated sheets showing the estimate of acreage made by the seven classes of correspondents, namely the field agents, the state agents, the country correspondents, the township correspondents, the ginners, the special correspondents and the individual farmers.

Mr. Ellerbe states that he has direct and positive information that this cotton report has been manipulated to the disadvantage of the south, and alleges that no one of three traveling agents "was in two states upon which they passed."

TO DELICATE WOMEN

You will never get well and strong, bright, happy, hearty and free from pain, until you build up your constitution with a nerve refreshing, blood-making tonic, like

Wine of Cardui

It Makes Pale Cheeks Pink

It is a pure, harmless, medicinal tonic, made from vegetable ingredients, which relieve female pain and distress, such as headache, backache, bowel ache, dizziness, chills, scanty or profuse menstruation, dragging down pains, etc.

It is a building, strength-making medicine for women, the only medicine that is certain to do you good. Try it.

Sold by every druggist in \$1.00 bottles.

WRITE US A LETTER

freely and frankly, in strictest confidence, telling us all your symptoms and troubles. We will send free advice (in plain sealed envelope), how to cure them. Address: Ladies' Advisory Dept., The Chattanooga Medicine Co., Chattanooga, Tenn.

"YOU ARE FRIENDS

of mine," writes Mrs. F. L. Jones, of Galveston, Tex.: "For since taking Cardui I have gained 35 lbs., and am in better health than for the past 5 years. I tell my husband that Cardui is worth its weight in gold to all suffering ladies."

LOCOMOTIVE BLASTS

Using More Heavy Rails.

The striking extent to which the heavier steel rail has supplanted the lighter sections during the last decade is illustrated in the current number of the Iron Trade Review, which finds that since 1897 the proportion of rails weighing eighty-five pounds and over to the yard has increased from 21.5 per cent of the country's rail production to 41.9 per cent in 1905, and to even a larger figure this year. In 1902 and 1903 the total tonnage of rails was about the same, but in 1902 the proportion of heavy rails was 24 per cent, and in 1903 it was 42.1 per cent. In 1902 there was much building of new roads and of trolley roads, which in general take rails of less than eighty-five pounds. In 1903, on the other hand, the orders were much more strictly confined to replacement orders by the large roads, and heavy sections were taken. This put the proportion very high. Then for the season of 1904 the large roads were hoping for a reduction in price, and placed orders as small as possible, which put the proportion down again. For 1905 there were no special conditions, and the percentage shown for that year was the normal.

There has not been noticed, in the past three or four years, any tendency toward the 100-pound rail. Most of the roads still prefer an eighty-five or ninety-pound rail. Instead of still going in for still heavier rails, the railroads are more likely to call for better material. The desire for open-heart rails has much increased, and nickel and other alloy steel may find much vogue.

Much of the replacement work now going on is to replace, with eighty-five pound and heavier sections, rails which are not worn out but are too light. When the bulk of the track has been relaid with heavy rails there may be a tendency to a halt in the increase of tonnage, but the total track to be kept up is increasing each year, and the duty is increasing through heavier loads, greater speed and greater density of traffic.

Several changes were made in the runs of engineers on the Henderson division this week. Engineer Griggs, who was in charge of the Baker Hill engine before the tunnel was completed, by length of service with the company succeeds to the day passenger runs, namely 51 and 52. Engineer Sam Branch, formerly on these runs is advanced to trains 92 and 93. Wm. Griffith, heretofore engineer on the Chicago Limited, has gone on one of the Evansville-Providence accommodations relieving Frank P. Giannini. Mr. Giannini will be assigned to freight service.

The two regular north end chain gang crews, which were discontinued last week, have again been placed in service on that part of the division. Other train crews sent north besides these regular trains will have no lay over at Howell, but will be sent back to this point as quickly as possible.

The engine of the north local freight, in charge of Engineer Loch Rowe and Conductor Chas. Martin, was derailed at the stock

yard, near Madisonville, Saturday. The wrecker was ordered from this place and the engine placed in position after a two hours' delay to traffic.

The home of Conductor and Mrs. Ernest Eastwood, of Howell, Ind., was blessed by the arrival of a 8 pound boy baby on Thursday night of last week. It is not necessary to say that Ernest is the happiest man on the division.

Engineer Joe Rupecek, of Nashville, Tenn., was here last week mingling with the boys. Joe was employed for years as switch engineer in the local yard and is popular with all the Henderson division.

A switch has been laid leading from the main track to south lead track in south Earlington yard. The switch is 825 feet south of the road crossing near Barnsley mine.

Cal J. Martin, of Montgomery, Ala., was here several days the latter part of last week visiting friends.

Callie Nick Herb has resigned and gone to Louisville, where he has accepted a position.

Switchman Jeff Murphy is filling the position of night yardmaster at this place.

Engineer Keef and wife visited relatives near Providence several days last week.

Night Yardmaster Joe Brinkley has obtained a two weeks' leave of absence.

Fireman Stanley was in Nebo Saturday and Sunday visiting relatives.

Engineer Elmo Shaver was in Madisonville Monday shopping.

Mart Johnson has accepted a position as caller at the depot.

AROUND THE FARM

Poultry Allments.

When the crop is hard and unyielding there is danger of the bird becoming crop bound.

When the discharges are streaked with blood it is time to give preventatives for diarrhoea.

When the hen seems giddy and runs round and round, she is probably suffering from apoplexy.

When the joints are hot and swollen and the fowl is disinclined to stand rheumatism has taken hold.

When the excrement secreted by the kidneys, which is normally pure white, appears yellow, look out for bowel trouble.

When the bird has leg weakness, with no disorders of the liver, feed better and give plenty of bone forming material.

When a bird is "young light," has good appetite but passes food from the bowels undigested, it is the early stage of consumption and treatment is useless.

Best Egg Preservers.

In a test with various egg preservatives at an experiment station, the two best substances for keeping eggs were found to be lime water and water glass solution. Eggs put up in lime water scored 41 out of a possible 50 and those in water glass in proportion of 1 part to 7 of water scored 43.2 out of a possible 50. The addition of salt to the lime water failed to secure as good results as the lime water alone, and greased eggs put up in salt were not equal to the others mentioned. If you don't know how to make these preparations take this to your druggist.

Farm Brevities.

When clover fields are infected with the root borer, allowing them to stand but two years will help to subjugate the pest in any locality.

Every farmer should have his seed corn testing patch, on which competing selections from his own fields and varieties secured many years may

be subjected to a careful field test under his own eye.

Potato scab can be largely prevented by submerging the seed for two hours or more in a formalin solution made by dissolving one pint of formaldehyde in thirty gallons of water.

Great inspiration is made from keeping a record, and nothing gives a dairyman more satisfaction than watching the improved record from his herd.

The byproducts of cheesemaking and buttermaking are valuable factors in adding to the wealth of dairymen through hogs and the rearing of cattle.

Stock Notes.

Pigs from young and immature sows are likely to be weak. Do not be afraid to use an old boar or an old sow.

Before the well known, hane staple breaks you had better replace it with a new one, or it may cause you to lose a half day in a busy time.

Unless a man has some love for cows, and some idea what to do for their comfort, he will never make a success in dairying.—Farm Journal.

Proper Way to Set a Hen.

Place a few chin nest eggs in the nest and allow the hen to set a day or two before placing the eggs under her. Dab her thoroughly with insect powder and put in front of her a

supply of grit, corn and a pan of fresh water and let her help herself at will. It is better to set hens by two so that when the broods are hatched all of the chicks can be put with one hen and the other hen can be reset.—E. B. Rice, Kansas.

Make Plan of Garden.

Nake a careful plan beforehand of the garden, dividing it into plots, then decide what is to be planted or sown in each plot, and when planting time comes begin at one side of the plot, leaving space for successive sowings or plantings. This method will not only save time but it will also make the garden look ship-shape, I should perhaps say garden shape.

Ungrateful Hens.

Peter Tumbledown told me that he could not see why his hens would not lay. He keeps feed before them all the time. I went into his hen house to see what kind of feed he gave. It was bran mixed with cold water, and it was frozen solid. It had to stay by them, for it was so hard they could not eat it. People might as well keep mongrel hens. If they are going to give mongrel care.—Farm Journal.
